

DIPONKOR ROY

Frontend Developer (MERN Stack) | Next.js | React | Node | Express | Javascript(ES6+) | TypeScript | AI-Assisted Development

Dhaka, Bangladesh | +8801744533593 | diponkorroy064@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

CAREER OBJECTIVE

Motivated Junior Frontend Developer with MERN stack experience and a strong foundation in modern web development. Proficient in creating responsive interfaces, integrating backend services, developing dashboard applications, and managing user authentication. Committed to writing maintainable code, enhancing user experience, and continuously learning new technologies, including AI-assisted development workflows that support efficient debugging, testing, and documentation.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, React Router, Context API, Dynamic Routing

UI / Styling: Tailwind CSS, Bootstrap, DaisyUI, shadcn/ui, Material UI, Framer Motion, Responsive Design, Accessibility, SEO Basics

Backend: Node.js, Express.js, MongoDB, REST APIs, CRUD Operations, JWT, Better Auth, Server-side Validation, NoSQL

Data & Forms: Fetch API, React Hook Form, Search & Filtering, Protected Routes, Role-based Access Control, Error Handling

Tools: Git, GitHub, VS Code, Vercel, Netlify, Render, npm, Chrome DevTools, Figma-to-Code

AI Tools: ChatGPT, Gemini, GitHub Copilot, Cursor, Claude, Prompt Engineering, AI-assisted Debugging, README Documentation

PROJECTS

AgroLink – MERN Agricultural Resource Sharing Platform | [Live Demo](#) | [Client-Repo](#) | [Server-Repo](#)

Technologies: Next.js, React, Node.js, Express.js, TypeScript, MongoDB, Better Auth, JWT, Cloudinary, Stripe

- Built a role-based agricultural resource sharing platform where farmers can publish guides, tutorials, and research materials, while users can explore and access farming resources.
- Implemented resource CRUD, secure authentication, image/PDF uploads with Cloudinary, protected dashboards, and REST APIs for efficient content management.
- Developed responsive UI, resource search and filtering, form validation, and tested authentication, API handling, and edge cases before deployment.

StayNest – MERN Rental Property Booking & Management Platform | [Live Demo](#) | [Client-Repo](#) | [Server-Repo](#)

Technologies: Next.js, React, Node.js, Express.js, JavaScript (ES6+), MongoDB, Better Auth, JWT, Stripe

- Built a role-based rental platform for **Admins, Property Owners, and Tenants** with property listing, booking, and dashboard management.
- Implemented property CRUD, booking workflow, Stripe payments, JWT authentication, Better Auth, and responsive dashboards with search, filtering, and role-based access control.
- Tested authentication, form validation, API error handling, and responsive layouts to ensure a reliable user experience.

Pet Haven – MERN Inventory & Adoption Management Dashboard | [Live Demo](#) | [Client-Repo](#) | [Server-Repo](#)

Technologies: Next.js, React, Node.js, Express.js, JavaScript (ES6+), MongoDB, Better Auth, JWT

- Built a role-based(**pet owners, shelters**) pet inventory and adoption management dashboard with secure authentication.
- Developed CRUD operations, search, filters, adoption tracking, and protected routes.
- Ensured responsive design, form validation, and robust API error handling.

EDUCATION

B.Sc. in Agriculture from **Sher-e-Bangle Agricultural University** (2022-Present)

CERTIFICATIONS & LANGUAGES

Certifications: AI-Powered Future-Ready Web Development with Programming Hero, 2026; Responsive Web Design / JavaScript / React practice certificates – freeCodeCamp or equivalent.

Languages: Bangla – Native; English – Professional working proficiency, comfortable with technical documentation, email communication, standups, and interview practice.

Soft Skills: Problem solving, self-learning, technical documentation, team communication, feedback handling, deadline ownership, and recruiter-ready project presentation.
