DIPONKOR ROY

Full Stack Developer | Next.js | React | TypeScript | Node.js | REST APIs | AI-Assisted Development
Dhaka, Bangladesh | +8801744533593 | diponkorroy064@gmail.com | LinkedIn | GitHub | Portfolio

CAREER OBJECTIVE

Full Stack Developer focused on building production-ready web applications with Next.js, React, TypeScript, Node.js, Express.js, REST APIs, and databases. Experienced in authentication, payments, role-based systems, API integration, debugging, testing and deployment. Comfortable using AI coding tools such as Cursor, Claude, GitHub Copilot, and ChatGPT to accelerate development while reviewing and validating AI-generated code. Strong interest in AI-assisted product engineering and building reliable, maintainable software.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript(ES6+).
Frontend: React.js, Next.js, HTML5, React Router, App Router, Context API, Dynamic Routing.
UI / Styling: CSS3, Tailwind CSS, DaisyUI, HeroUI, Material UI, Framer Motion, Responsive Design, Access, SEO Basics.
Backend: Node.js, Express.js, REST APIs, CRUD Operations, JWT, Better Auth, Server-side Validation.
Database: PostgreSQL, MySQL, MongoDB, SQL, Database Design, Indexing, Query Optimization.
Tools: Git, GitHub, VS Code, Vercel, Netlify, Render, npm, Chrome DevTools, Figma-to-Code.
AI Tools: ChatGPT, GitHub Copilot, Cursor, Claude — AI-assisted development and debugging.
Soft Skills: Problem solving, self-learning, technical documentation, team communication, feedback handling, deadline ownership and recruiter-ready project presentation.

PROJECTS

StayNest - MERN Rental Property Booking & Management Platform | Live Demo | Client-Repo | Server-Repo
Technologies: Next.js, React, Node.js, Express.js, JavaScript (ES6+), MongoDB, Better Auth, JWT, Stripe

- Built a role-based rental platform for **Admins, Property Owners, and Tenants** with supporting property listing, booking, and tenant management across separate user dashboards.
- Implemented property CRUD, booking workflow, Stripe payments, JWT authentication, Better Auth, and responsive dashboards with search, filtering, and role-based access control.
- Tested authentication, form validation, API error handling, and responsive layouts to ensure a reliable user experience.

HireLoop – Full-Stack Job Portal & Recruitment Platform | Live Demo | Client-Repo | Server-Repo
Technologies: Next.js, React, JavaScript, Node.js, Express.js, MongoDB, Better Auth, JWT, Tailwind CSS

- Built a role-based job portal platform connecting **Job Seekers, Recruiters, and Administrators**, with dedicated dashboards and role-specific features.
- Implemented job and company management, job applications, CRUD operations, authentication, protected routes, REST APIs, image uploads, search/filtering, and pagination.
- Developed responsive interfaces with Next.js and Tailwind CSS, including job browsing, application tracking, recruiter job posting, company approval management, and admin monitoring features.

Pet Haven - MERN Inventory & Adoption Management Dashboard | Live Demo | Client-Repo | Server-Repo
Technologies: Next.js, React, Node.js, Express.js, JavaScript (ES6+), MongoDB, Better Auth, JWT

- Built a role-based (**pet owners**, **shelters**) pet inventory and adoption management dashboard with secure authentication.
- Developed CRUD operations, search, filters, adoption tracking, and protected routes.
- Ensured responsive design, form validation, and robust API error handling.

EDUCATION | Certificate

B.Sc. in Agriculture from **Sher-e-Bangle Agricultural University**(2022-Present)
My degree is Agriculture, but my practical software engineering experience is demonstrated through multiple full-stack applications.

CERTIFICATION

AI-Powered Future-Ready Web Development with Programming Hero, 2026.

LANGUAGES

Languages: Bangla(Native), English(Professional working proficiency).
